K. LEAP MARKET RISK DISCLOSURE STATEMENT

I, the Applicant, hereby confirmed that I have read, understand and accept the following:-

- (1) The LEAP Market (as defined under the Rules of the Exchange) is aimed at facilitating access to the capital market by small or medium sized enterprises (“SMEs”) to which a higher investment risk may be attached. The LEAP Market is a qualified market meant for sophisticated investors only, i.e. those who qualify under Part I of Schedules 6 and 7 of the Capital Markets and Services Act 2007 (“CMSA”). The issue or offer of securities on the LEAP Market is based on an information memorandum, and not a full prospectus registered with the Securities Commission Malaysia under Section 233 of the CMSA. In the LEAP Market, sophisticated investors will have the full responsibility for evaluating the disclosed information, as well as the merits and risks of investing.
- (2) The purpose of this statement is to inform me that apart from the normal risks involved in trading in securities, trading securities in the LEAP Market comes with other additional risks. I should NOT invest in the securities offered unless I am a sophisticated investor and I fully understand and am prepared to take the risks. I should assess whether the purchase of the securities is suitable for me in light of my knowledge, financial means, investment objectives and the risks I am prepared to take. The risks of investing in such securities include but are not limited to the following:
 - (a) **Small Companies**
Generally, the listed companies on the LEAP Market are smaller than the listed companies on the ACE Market (as defined under the Rules of the Exchange) or Main Market (as defined under the Rules of the Exchange) and may not have a proven track record in terms of operating history or profit track record. Hence, I should be aware that there is a higher risk of business failures which may adversely impact my investments should I choose to invest.
 - (b) **Minimum Requirements on Disclosure and Governance**
The LEAP Market has a regulatory framework on disclosure and post-listing requirements appropriate for sophisticated investors only. This framework may be less prescriptive than that in the ACE Market or Main Market. The listed companies on the LEAP Market are required to provide only key information about its business plan, operations and financial information. This may affect my ability to make fully informed investment decisions.
 - (c) **Liquidity Risks**
As a market limited to sophisticated investors only, the LEAP Market may not have the trading activities or liquidity of the ACE Market or Main Market. I may not be able to exit my investment as easily as in the ACE Market or Main Market. Limited trading activities or illiquidity in the LEAP Market may increase the risk of loss by making it difficult to effect transactions or sell the LEAP Market securities.
- (3) This brief statement cannot disclose all the risks and other significant aspects of trading securities in the LEAP Market. I should understand the key characteristics, business plan and financial information of the companies listed on the LEAP Market thoroughly and carefully study all the risks associated with securities in the LEAP Market and/or seek independent professional advice before I decide to invest.
